Oct. 7, 1930.

Mr. H. Wood,
156th St. & Broadway,
New York City.

Dear Mr. Wood:

The Budget Committee of the Club has made its recommendations of the club's necessary expenses for the present fiscal year and to meet that amount it is necessary to increase its receipts.

The Membership Committee of the Club will start a campaign shortly to increase its membership. We are hoping to procure at least 150 more members from the Metropolitan area. Such membership will enable the Club to increase its activities and avoid any deficit. To obtain that increased membership would necessitate the spending of more money than was spent last year for this purpose. The Board of Governors plans to keep you informed of the progress of the Club.

Enclosed is a list of Brown men who were in college about the same time you were and who are living in the Metropolitan area who are not now members of the Club. Also a list of the same period who are members. Would you please co-operate by communicating with any of the Brown men whom you happen to know on this list who are non-members and request that they become members of the Club.

The Board of Governors is putting forth special efforts to attract to membership in the Club the younger graduates who are living in New York City and hope to have an outstanding member of the younger group actively associated with the Club during the year who will direct the Club's activities, including its contacts with the University, thus continuing the direct association between the Club and the University and the graduates with the student body.

Thanking you for your co-operation, I am

Sincerely yours,

Denise S. O'Brien
President.
